## GRINDWALL

Grindwall  
Autoproduit 2007

GRINDWALL, voilà un groupe qui honore une Italie jusqu'alors peu connue pour la qualité de sa scène rock, en en distinguant, de plus, le côté sombre et psyché, expérimental et opaque. Ce cinq titres en est la parfaite illustration, avec ses morceaux entre noise et psychédéisme, Desert song et Night whispers atteignant même respectivement 12.20 et 32.30 minutes. Tels des BLACK ANGELS plus psyché encore, plus souterrains, les ressortissants de Trente et de Rome élaborent des titres parfaits dans le genre, qui parfois répètent les mêmes motifs sans jamais ennuyer, loin s'en faut. Massifs et remuants à la fois, dotés d'une voix quasi-incantatoire, ces plages captivantes, en plus d'engendrer une certaine fascination, constituent l'identité singulière d'un groupe qui l'est tout autant. En outre, les paroles sont d'une certaine qualité (voir leur site), ce qui ne fait qu'ajouter au pouvoir d'attraction de ce projet concluant. Et la noirceur du propos, cette rythmique massive, ces guitares souillées, géniales et bénéficiant d'un traitement non-conventionnel, passionnent quelle que soit la durée du morceau e cours, que ce soit les 2.44 de E\_motion less ou les 12.20 de Desert song. Pour conclure donc, un groupe sans équivalent connu, à suivre désormais de très près au vu de l'excellence de ce disque.

## GRINDWALL

*Grindwall*

Autoprodotto 2007

**GRINDWALL** è un gruppo che onora un'Italia fino ad ora poco conosciuta per la qualità della sua scena rock, distinguendosi inoltre per il lato cupo e noise, psichedelico, sperimentale e opaco. I cinque brani contenuti in questo disco ne sono la perfetta dimostrazione, con pezzi a metà tra noise e psichedelia. *Desert Song* e *Night Whispers*, ad esempio, raggiungono rispettivamente i 12:20 e i 32:30 minuti.

Come dei **BLACK ANGELS** ancora più psichedelici e sotterranei, i musicisti di Trento e Roma costruiscono brani perfetti nel genere, che talvolta ripetono gli stessi motivi senza mai annoiare, anzi. Potenti e ipnotici allo stesso tempo, dotati di voci quasi incantatorie, queste tracce coinvolgenti, oltre a generare una certa fascinazione, costituiscono l'identità singolare di un gruppo che lo è altrettanto.

Inoltre, i testi hanno una certa qualità (vedi il loro sito), il che aumenta ulteriormente il potere attrattivo di questo progetto coerente.

L'oscurità del contenuto, il ritmo massiccio, le chitarre sporche e geniali che beneficiano di un trattamento non convenzionale, affascinano qualunque sia la durata del brano o il pezzo in sé, sia che si tratti dei 2:44 di *E\_motion Less*, sia dei 12:20 di *Desert Song*.

**In conclusione**, un gruppo senza equivalenti conosciuti, da seguire da vicino dopo l'eccellente lavoro presentato in questo disco.

## GRINDWALL

### *"Grindwall" EP* *Experimental | Rock*

Grindwall é um projecto italiano formado por Giorgio Moresi e Gianmarco Lai e que envolve outros artistas influenciados pelos Blues, Rock e Psicodelismo. Este EP demonstrativo auto-intitulado apresenta 5 canções executadas incansavelmente em 52 minutos. Um material com alguns temas muito longos (32 minutos) e repetitivos que o torna um tanto cansativo, porém deve agradar aos amantes de guitarras e sobretudo aos fãs de Velvet Underground.

# Grindwall

Grindwall is a project that involves musicians coming from blues, rock and psychedelic experience.

It's a workshop working around noise and sound walls concepts, using minimal patterns to construct songs. Their heavy sound comes basically from two, or more, electric guitars improvising on simple bass and drums lines, using loops and repeating phrases to grow up musical ideas and to improve tension.

Main idea is to build powerful music structures exploring the dark side of mind, in a continuous mantra that grows up from level to level, until caos arrives.

Songs are built on two different, and opposite, ideas: short structures based on stiff minimal patterns, and long improvising areas based on repeating beat lines.

Lyrics are inspired by underground lectures. Music refers to 60's acid concerts, dark groups experiences, experimental noise bands, contemporary minimal music and, above all, Lou Reed, Velvet Underground, Glenn Branca and Sonic Youth.

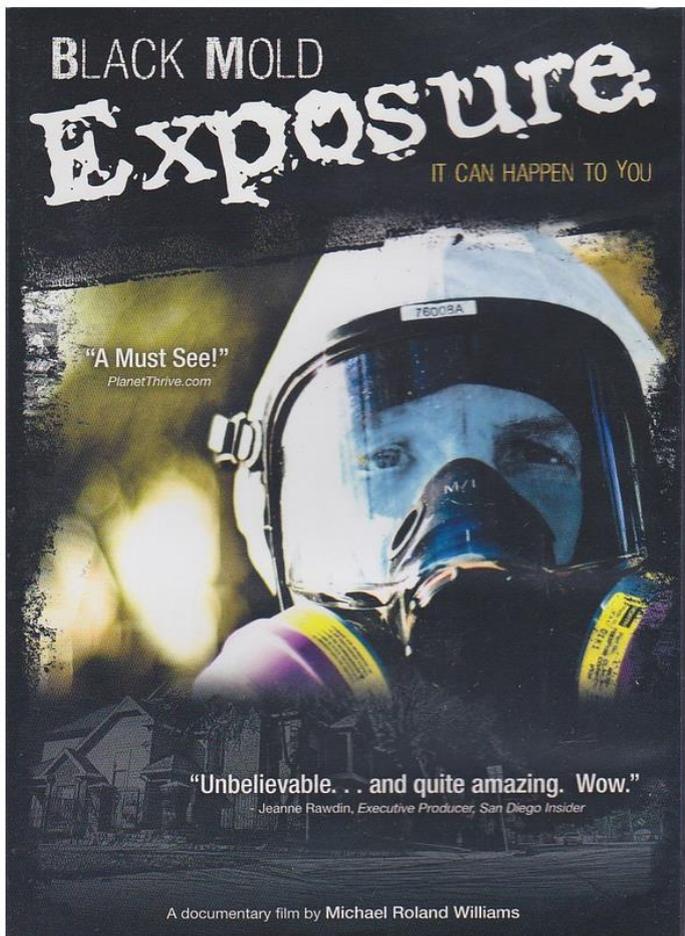

We hope you enjoy our music. Have a nice trip.

Motionless, by Grindwall,  
is in the soundtrack

Hi guys,

My name is Michael Roland and I am producing a feature length (90 minutes) documentary. I am interested in licensing your song Motionless for the film. We are licensing two additional tracks in addition to the two we had specifically composed for the film.

Thank you for your time.

Micheal

....

Excellent! I appreciate the prompt response to my inquiry.

We need to ensure that you are paid your royalties, and in order to do this we need to have a contract since your work is copyrighted. You will receive a performance royalty and a publisher's royalty from ASCAP. It is an organization free to join that monitors royalties for performers worldwide. They are based in the US. We cannot release a film without a contract giving us license to use the song in the film. I can have a copy of the contract agreement draw up and sent over for you to approve. Is there an email I can send the contract to? Also, is there a particular person in general that owns the copyright and has the right to license the song. This would be the lyrics writer and music writer(s).

Please let me know so that I can include the appropriate parties in the contract that I send over for you to review.

Best regards,

Love your guys music and we are willing to play you guys on the radio. But we only add people who we play on the radio.

If you guys want to get on the radio, all we ask is for mp3's or a cd to put the music on the radio. We don't like taking the music off myspace as the quality of the music is not that good through myspace (usually the quality of music on myspace is 96 kbps not 128 kbps and that is what we stream at on the radio).

The best way to get music to us is through my gmail account or through snail mail.

So you can send the music either way.

My gmail account is "frekwalda@gmail.com" or through snail mail.

By sending us these MP3's or CD, you have giving us permission to stream, play, and perform on our station. These songs will not be made available for download.

Ho ricevuto ed ascoltato il cd con molta curiosità. Che dire se non ripetere i miei apprezzamenti come già feci l'altra volta. Da domani inizio a trasmetterlo, poi possiamo pensare ad una futura intervista!! Ciao

Guarda, spenderò il tuo nome con gli organizzatori di una rassegna di musica eterodossa chiamata Scatole Sonore. So che stanno cercando ulteriori band da far suonare, l'unica cosa che ignoro è se devono essere solo romani o va bene anche a livello nazionale.

Per l'intervista, mi puoi mandare un promemoria la prossima settimana?

Grazie

Gianluca
